## Q2 2022 Results Presentation

**September 28, 2022** 

#### **Disclaimer**

#### **Restatement of Financial Information**

Pursuant to the International Accounting Standard 29, Financial Reporting in Hyperinflationary Economies ("IAS 29"), the financial statements of entities whose functional currency is that of a hyperinflationary economy must be adjusted for the effects of changes in a general price index. IAS 29 does not establish an absolute rate when hyperinflation is deemed to arise and the International Accounting Standards Board ("IASB") does not identify specific hyperinflationary jurisdictions. However, IAS 29 provides a series of non-exclusive guidelines that assist companies in exercising their judgement as to when restatement of financial statements becomes necessary. These guidelines consist of (i) analyzing the behavior of the population regarding preservation of wealth in non-monetary assets or in relatively stable foreign currency, prices being quoted in terms of a relatively stable currency, interest rates and wages being linked to a price index, and the loss of the currency's purchasing power, and (ii) as a quantitative characteristic, verifying if the three-year cumulative inflation rate approaches or exceeds 100%. In March 2022, the International Practices Task Force of the Centre for Audit Quality, which monitors countries experiencing high inflation, categorized Türkiye as a country with projected 36 months' cumulative inflation rate greater than 100% as of February 28, 2022. Therefore, Turkish companies reporting under IFRS, including the Company, have been required to apply IAS 29 to their financial statements for periods ending on and after June 30, 2022.

The Company's interim financial statements as of June 30, 2022, including figures corresponding to the same period of the prior year, have been restated pursuant to IAS 29. Under IAS 29, the Company's financial statements are presented in terms of the measuring unit current as of June 30, 2022. All the amounts included in the statement of balance sheet which are not stated in terms of the measuring unit current as of the date of the financial statements are restated applying the general price index. Adjustment for inflation has been calculated considering the price indexes published by the Turkish Statistical Institute (TurkStat). For the indices used, please refer to the press release. The information contained in documents we have previously filed or furnished with the U.S. Securities and Exchange Commission is not directly comparable to the information presented below on an adjusted basis.

#### **Non-IFRS Financial Measures**

This presentation includes certain non-IFRS financial measures, including but not limited to, EBITDA, Free Cash Flow and Net Working Capital. These financial measures are not measures of financial performance in accordance with IFRS and may exclude items that are significant in understanding and assessing our financial results. Therefore, these measures should not be considered in isolation or as an alternative to profit/loss for the period or other measures of profitability, liquidity or performance under IFRS. You should be aware that the Company's presentation of these measures may not be comparable to similarly titled measures used by other companies, which may be defined and calculated differently. See "Presentation of Financial and Other Information" in this presentation for a reconciliation of certain of these non-IFRS measures to the most directly comparable IFRS measure.

#### **Statement Regarding Unaudited Financial Information**

This presentation includes quarterly financial information for the three months ended June 30, 2022 and 2021 and six months information for the year 2022 and 2021. The quarterly information has not been audited or reviewed by the Company's auditors. The unaudited interim consolidated financial statements include the accounts of the Company and its subsidiaries. All periods presented have been accounted for in conformity with International Financial Reporting Standards ("IFRS") and pursuant to the regulations of the SEC.

## **Forward Looking Statements**

This presentation, the conference call webcast, press release and related communications include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended and the Safe Harbor provisions of the US Private Securities Litigation Reform Act of 1995, and encompasses all statements, other than statements of historical fact contained in these communications, including but not limited to statements regarding (a) Company's future results of operations and financial position; (b) our expectations regarding current and future GMV and EBITDA; (c) potential disruptions to our operations and supply chain that may result from (i) epidemics or natural disasters, including the duration, scope and impact on our operations in general and the pace of recovery from the COVID-19 pandemic (ii) global supply challenges; (iii) the ongoing conflict in Ukraine; (iv) changes in the competitive landscape in the industry in which the Company operates (v) rising inflationary environment and/or (vi) currency devaluation; (d) anticipated launch of new initiatives, businesses or any other strategic projects; (e) our expectations and plans for short- and long-term strategy, including our anticipated areas of focus and investment, market expansion, product and technology focus, and projected growth and profitability; (f) our ability to respond to the ever-changing competitive landscape in the industry in which we operate; (g) our liquidity, substantial indebtedness, and ability to obtain additional financing; (h) our strategic goals and plans, including our relationships with existing customers, suppliers, merchants and partners, and our ability to achieve and maintain them; (i) outcomes resulting from the pending litigation; (j) expectations regarding our future performance based on our ability to attract more customers to our platform in a cost effective manner, to increase frequency of our customers on our platform, to add more merchant

## **Addressing the Changing Market Dynamics**

#### **Key Observations**

- Change in customer trends
  - Pressure on consumer spending
  - Shift towards affordable services and products
  - Need for reliable and budget-friendly experiences
- AOV<sup>(1)</sup> growth < Inflation rate
- For consumers, substitution with more affordable products and partial holdback in purchase decisions for certain categories
- For sellers, limited inflation impact due to inventory carryover and competitive market dynamics
- For food, grocery and FMCG<sup>(2)</sup> products (limited portion in our GMV<sup>(3)</sup>), relatively stronger correlation with inflation

#### **Key Capabilities**

- Hybrid 1P-3P business model
- Affordability solution set
- Paid subscription program: Hepsiburada Premium
- Leading NPS reinforced by robust logistics
- Expansion of selection by 2x in number
- Segment-based campaigns
- Order growth fueled by active customers and frequency

NOTE: Growth figures are between Q2 2022 and Q2 2021 unless otherwise indicated. The year-over-year growth rates are calculated over full digit value. All other figures in single digit are rounded to the nearest digit. (1) Active Customers are users (both unregistered users and members) who purchased an item within the 12-month period preceding the relevant date, including returns and cancellations.

<sup>(2)</sup> Frequency means the average number of orders per Active Customer over a 12-month period preceding the relevant date.
(3) Active Merchants are merchants who sold at least one item within the 12-month period preceding the relevant date, including returns and cancellations.

# Financial Performance

## Understanding the Impact of IAS 29 Implementation

## IAS 29: Financial Reporting in Hyperinflationary Economies

- Financial statements prepared in the currency of a hyperinflationary economy are stated in terms of the measuring unit current at the balance sheet ("b/s") date, and the corresponding figures for previous periods are restated in the same terms.
- Monetary assets and liabilities that are carried at amounts current at the b/s date are not restated because they are already expressed in terms of the monetary unit current at the b/s date.
- Non-monetary assets and liabilities which are not carried at amounts current at the b/s date, and components of shareholders' equity are restated by applying the relevant monthly conversion factors.
- Comparative financial statements are restated by applying general inflation indices to the currency purchasing power at the latest b/s date.
- All items in the statement of income are restated by applying the relevant (monthly) conversion factors.
- The effect of inflation on the net monetary position of the company is included in the statement of comprehensive loss as gain / (loss) on net monetary position.

Net loss for Q2 2022 is TRY 566.3 million. EBITDA is a non-IFRS measure. For reconciliation to the most comparable IFRS measure, please refer to the Appendix at the end of this presentation. See "Certain Definitions" in the Appendix of this presentation for GMV definition.

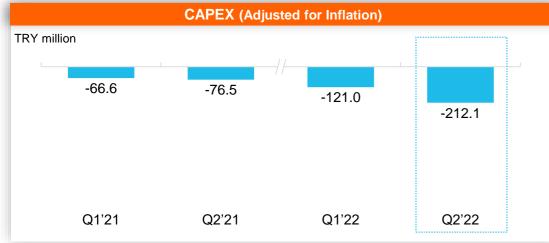

(\*) Includes technology expenses and other operating expenses

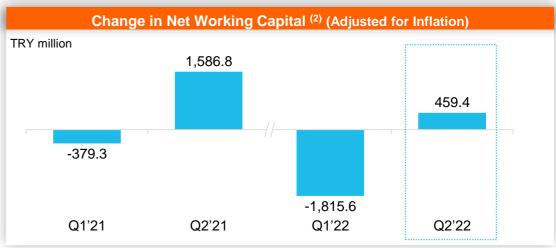

(1) The reported figures corresponding to Q3'21 and Q4'21 figures will be implemented while disclosing Q3'22 results.

#### Cash Flow Performance: Positive Free Cash Flow in Q2 2022

hepsiburada

(1) Free Cash Flow is a non-IFRS measure defined as net cash provided by operating activities less capital expenditures plus proceeds from sale of property and equipment. For reconciliation to the most comparable IFRS measure, please refer to the Appendix at the end of this presentation.

(2) Net Working Capital is as presented in the consolidated statement of cash flows.

# Continued Progress in Path to Profitability: Operational Excellence and Disciplined Cost Management

#### Monetization

- Continued focus on gross contribution margin
- Strengthening selection in non-electronics
- Expansion of affordability solutions
- Development of monetization of payment services
- Expansion of advertising services with new capabilities
- Scaling of fulfillment services (and delivery) consistently
- New subscription-based loyalty program: Premium

#### **Efficiency**

- Efficiency in marketing with focus on retention & engagement in customer lifecycle
- Segment-based acquisition while reducing overall marketing spending and promotions
- Optimization in unit economics of strategic assets such as on-demand grocery delivery
- Focus on better inventory management
- Technology and innovation unlocking further efficiency such as patented route optimization in last-mile delivery
- Continued discipline in G&A with efficiency in organization, process and systems
- Effective Capex prioritization

#### **Certain Definitions**

We provide a number of key operating performance indicators used by our management and often used by competitors in our industry. We define certain terms used in this presentation as follows:

- **GMV** as gross merchandise value which refers to the total value of orders/products sold through our platform over a given period of time (including value added tax ("VAT") without deducting returns and cancellations), including cargo income (shipping fees related to the products sold through our platform) and excluding other service revenues and transaction fees charged to our merchants;
- Marketplace GMV as total value of orders/products sold through our Marketplace over a given period of time (including VAT without deducting returns and cancellations), including cargo income (shipping fees related to the products sold through our platform) and excluding other service revenues and transaction fees charged to our merchants;
- Share of Marketplace GMV as the portion of GMV sold through our Marketplace represented as a percentage of our total GMV;
- **Gross Contribution** as revenues less cost of inventory sold. Gross Contribution is an indicator of our operational profitability as it reflects direct costs of products sold to our buyers;
- Gross Contribution margin as Gross Contribution represented as a percentage of GMV;
- EBITDA as profit or loss for the period plus taxation on income less financial income plus financial expenses, plus depreciation and amortization;
- Free Cash Flow as net cash provided by operating activities less capital expenditures plus proceeds from sale of property and equipment;
- Number of Orders as the number of orders we received through our platform including returns and cancellations;
- Frequency are to the average number of orders per Active Customer over a 12-month period preceding the relevant date;
- Active Merchants as merchants who sold at least one item within the 12-month period preceding the relevant date, including returns and cancellations; and
- Active Customers are users (both unregistered users and members) who purchased an item within the 12-month period preceding the relevant date, including returns and cancellations.
